SUMMARY

About Me I have three years of experience in web programming as a frontend developer, specializing in Vue.js and Nuxt.js. Throughout my career, I have collaborated with teams ranging from five to fifteen members. I have a strong passion for acquiring new skills and constantly strive for self-improvement.

PROFESSIONAL EXPERIENCE

Frontend Developer
01/2023 - 05/2023

Radar361
Tehran, IR

- Radar361, a startup focusing on ticket booking for trains, flights, accommodations, and tours, I designed and developed both client-side-rendering (CSR) admin panels and server-side-rendering (SSR) e-commerce websites using Nuxt.js, Bootstrap, and Vuex. Website: https://radar361.com/

Frontend Developer
07/2022 - 11/2022

Freelancer
Tehran, IR

- I developed admin panels and resume websites.
- I utilized Swagger and Axios for backend communication and worked with Vuex for state management.
- Resume Website: http://surthland-resume.surge.sh/
- Website: https://tehrantc.com

Frontend Developer
11/2021 - 05/2022

Avajang
Tehran, IR

- I developed admin panels and an e-commerce website.
- I used Swagger and Axios for backend communication and also created custom packages such as file upload without UI components.
- Avajang focuses on computer software gaming components and consists of a team of four backend developers, two frontend developers, and one product manager.
- Website: https://www.avajang.com

Frontend Developer
09/2020 - 10/2021

Hakupian
Tehran, IR

- I worked on organizational charts and designed a dashboard panel using React.
- I also developed frontend admin panels, including a recruitment resume project where I created a mock API using Mockoon.
- I worked with React for 6 months and Vue.js for 8 months.
- Hakupian has a team of approximately 14 members, including backend and frontend developers, DevOps, Scrum Masters, and product managers.
- Website: https://www.hakupian.com
